Corps of Engineers plans removal of some facilities at a Lake O' the Pines park

The Fort Worth District, U.S. Army Corps of Engineers is proposing to remove the restroom facilities and several picnic tables at Oak Valley Park at Lake O' the Pines because they have been either vandalized or are no longer needed for visitors.

The road and boat ramp at Oak Valley Park, used primarily by local fishermen, will remain open to visitors. Trash pickup and mowing will continue and traffic controls will be used to keep vehicles on the designated roadway.

The Corps of Engineers is accepting written comments on this proposal until April 28, 2000. Questions or comments should be addressed to Lake Manager, Lake O' the Pines, P.O. Drawer W, Jefferson, Texas 75657. The Lake Manager can be reached at (903) 665-2336 or by fax at (903) 665-8441.
